WordPress Management for Professionals

# Matt's Background

---

# Why I am using MainWP

- Cost
  - Free with limited features
  - Lifetime subscription (\$399)
    - Monthly (\$20)
- Self Hosted
  - I own the data
  - Other vendors can't contact my clients
- Plugins offered
  - Backup
  - Analytics
- Reporting
  - Customizable client reports
- Branding
  - Client sites see my name and logo

# Liam's Questions:

## **How many sites do you manage?**

I manage 9 sites including the MainWP Site

## **What types of support/maintenance do you offer ?**

- Wordpress
  - Managed by web host; Flywheel
  - Not hosted by flywheel I'll update WP
- Plugin & theme updates
- Monthly off-site backup to dropbox (daily backups by web host)
- Uptime Monitoring
- Analytics Tracking
- Google Page Speed
- Broken Links
- Abandoned plugins

# Liam's Questions:

## **How much time do you spend managing each site?**

Minimal time is spent on each site for routine maintenance

Sites that I manage the content on take more time as demanded by client requests

## **How frequently are you performing updates?**

- I receive an email daily when there are updates that need my attention and I then login and update takes approx 7 minutes
- Plugins that I trust are set to auto-update

## **How much of your overall workload is dedicated to maintenance?**

Half Hour / wk

## **How do you handle requests for support (i.e., items beyond updating plugins, themes, etc.)**

Any work that is outside the maintenance is billed at an hourly rate.

The MainWP Auto Updates feature is a tool for your Dashboard to automatically update plugins that you trust to be updated without breaking your Child sites.

Only mark plugins as trusted if you are absolutely sure they can be automatically updated by your MainWP Dashboard without causing issues on the Child sites!

Auto Updates a delayed approximately 24 hours from the update release. Ignored plugins can not be automatically updated.
